### SUMMARY

- I am third year student and I major in software engineer in Van Lang university.
- I apply for intern frontend developer using React.js and other relevant library/ framework such as redux, next.js, material UI.
- I am self-study, I already accomplished one react course and a half HTML, Css, Js course in Udemy ( both are English only).
- I am hard-working, always try to look for solutions in every corner (both Vietnamese and English sides) I can find even when it takes days to finish a task.
- I am seeing myself as a professional react developer in the next 2-3 years who can confidently analyze and solve any frontend problems in a good way. With that ambition, I will contribute my best to company's growth as well as myself.
- My GPA: 3.36/4
